pluralsight
hardcore dev and IT training

Reasons to Watch This Course

- **Web Forms can do everything MVC can do**
  - Friendly URL's
  - No ViewState on client
  - Static "id" attributes
  - jQuery and JavaScript
  - HTML 5
  - CSS 3
  - Plus all the server controls you are used to

- **You don't need to learn MVC to program modern web sites**

- **You already have experience with Web Forms, so use it**

Course Audience

- **I assume you know the following technologies…**

- **ASP.NET Web Forms**
  - Server controls
  - ViewState
  - Master Pages

- **HTML and HTML 5**

- **CSS and CSS 3**

- **Bootstrap**

Pluralsight Courses to Help You

- **If you are unfamiliar with these topics…**

- **Watch these Pluralsight courses**
